

Corporate Solutions

Reduce Costs | Improve Controls | Gain Visible Insight

Configuring our solutions to meet each customer's specific business needs, DATABASICS helps corporations with 50 to 50,000 employees optimally manage their travel and entertainment expenses, track and control labor costs, and automate invoice processing.

Managing Travel & Entertainment Expenses

Gain unlimited visibility and quickly reduce your costs with our DATABASICS Expense solution. Expense is a flexible solution that is easily configured to meet your company's business requirements.

With DATABASICS Expense, our customers:

- ➔ Achieve cost savings, as much as 67%, by automating expense report processing
- ➔ Reduce travel spend through improved program compliance
- ➔ Gain improved visibility and insight from pre-formatted and custom reporting
- ➔ Benefit from seamless integration with accounting, payroll, and travel booking systems

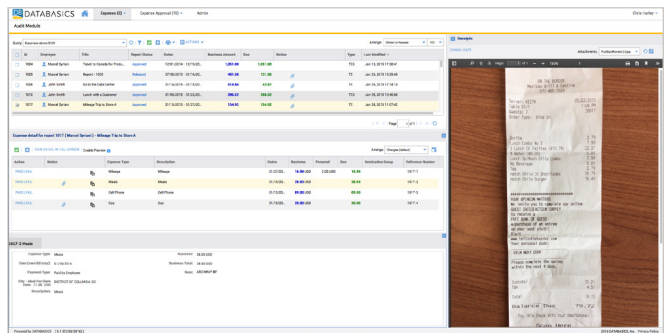

Managing Time Tracking & Control

Our Time solution takes the hassle out of capturing and managing employee time. A robust, yet easy to use, timesheet tracking and control solution tailored to fit your company's unique business requirements.

The DATABASICS support staff assigned to our company worked with us throughout the process from start to finish, tailoring our implementation as we integrated a new accounting system."

The Complete Time Tracking Solution

It's easy to use, supports simple and complex projects, and streamlines processing. With Time, you can better manage resource use, reduce administrative overhead for time reporting, and reduce Days Outstanding for billable work.

With DATABASICS Time, our customers:

- ➔ Capture time at any level with no restrictions, on any device
- ➔ Create rules for precise control over timesheet parameters
- ➔ Reduce timesheet processing with automation and integration with payroll and accounting systems
- ➔ Gain improved visibility and insight from both pre-formatted and custom reporting

Vendor Invoice Processing & Payment

Companies who continue to manually process invoices waste time and money, and run a serious risk of revenue loss. The workflow is often inconsistent, approvals are delayed, and policy compliance is hard to enforce. Yet this is how most companies still operate. Say goodbye to manual invoicing, and reap the benefits of effective end-to-end automation of invoice processing.

With DATABASICS Invoice, our customers:

- ➔ Capture invoices quickly and accurately – email, paper, or electronic submissions
- ➔ Customize a fast, precise approval workflow with strict compliance rules
- ➔ Gain insight into their entire invoice process and have better cash flow control
- ➔ Analyze & generate reports with ease, accuracy, and timeliness

Put your trust in us and get started today!

Corporations around the world trust DATABASICS products, and our customer-designated support teams, to create their perfect fit solutions. Call us at 800-599-0434 or visit www.data-basics.com to learn more about our Corporate Solutions.

Go Mobile

Employee reporting should be hassle-free. Why limit your employees to work on expense reports and timesheets from a computer? With the DATABASICS Mobile App, submitting or approving reports is easy and convenient from any phone, tablet, and other mobile device!
